## PROFILE

I am a beginner software developer with a high willingness to learn. I graduated from complex Junior Java Developer course (240h) in Codementors course academy. In July, I completed the similar Java course containing extended by Java EE and Spring with other additional technologies and issues. Currently, after finishing these both courses I am looking for first work in IT.

## EDUCATION

**2016.10 – 2017.10**  **University of Gdańsk** – M.A. in Computer Science (suspended)

**2016.03 – 2016.10**  **Hochschule Bremen, Germany** – M.Sc. in Mechatronics
- Erasmus+ programme

**2015.02 – 2016.10**  **Gdańsk University of Technology** – M.Sc. in Mechatronics
- Master thesis in cooperation with MERCOR S.A.

**2011.09 – 2015.02**  **Gdańsk University of Technology** – B.Sc. in Mechatronics
- Engineering thesis: 'Control of omnidirectional mobile robot with three degrees of freedom arm'

## WORK EXPERIENCE

**2018.06 – 2018.09**
**2017.07 – 2017.09**  **Cedar Point, Sandusky, USA** – Ride operator
- Working in an international environment thanks to Work&Travel Program

**2015.07 – 2016.10**  **MERCOR S.A. Gdańsk** – Industrial project in cooperation with MERCOR S.A.
- Designing of the spring-return actuator prototype for fire and smoke dampers
- Working with project management software (Wrike, Asana)

**2014.07 – 2014.08**  **MASTERS Sp. z o.o Straszyn** – Internship
- Testing of the PCBs
- Maintenance of the SMT machines

## COURSES

**2018.10 – 2019.07**  **Software Development Academy** – Junior Java Developer course (360h)
- Java 8
- JDBC, Hibernate
- Spring Boot

**2018.01 – 2018.06**  **Codementors Sp. z o.o. Gdańsk** – Junior Java Developer course (240h)
- Java 8, Maven
- Linux
- Git
- HTML 5, CSS 3, JavaScript, MySQL

## QUALIFICATIONS

**Languages:**
- English – C1
- German – B1

**Other skills:**
- 3D printing technology – assembled own 3D printer based on Mendel90 project and further utilization of pre-printed parts
- Embedded systems (C, C++) – Arduino, AVR, STM32 – usage of microcontrollers in a 3D printer and in student's projects
- Autodesk Inventor – usage of designed models in a 3D printer, master thesis and in student's projects
- Autodesk Autocad – basic practical knowledge

**Hobbies:**
- New technologies – electronic gadgets, 3D printing, Arduino
- Sports – football, skiing, snowboarding
